Re: Notice of Final Reclamation Release, Repete/Lee Mines, M/037/038, San Juan County, Utah

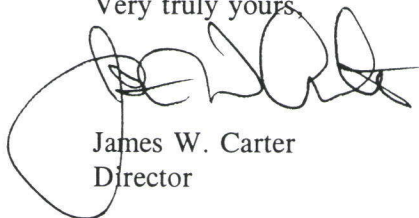

Dear Ms. Rehmann:

Division and BLM staff recently inspected the Repete and Lee mine sites. A copy of the inspection memo is enclosed for your files. Reclamation of these sites was performed in the summer of 1993 which means the vegetation has now survived approximately three growing seasons. As a result of the inspection the Division considers reclamation at the site to be complete. The BLM San Juan Resource Area has informed us via telephone that they are also satisfied with the reclamation at the site.

By this letter, the Division hereby formally releases Energy Fuels Nuclear from further reclamation responsibilities at this site. The \$1,206 surety bond being held by the Division for reclamation of this project is also released at this time. Please find enclosed the original surety bond #610 0529031 issued by North River Insurance Company for \$1,206. The Division file #M/037/038, for the Repete and Lee mine, located in Sections 8, 9 & 15, T39S, R25E, San Juan County, Utah, will be officially retired from our files.

Thank you for your time and diligence in performing the required reclamation work at this site. It has been a pleasure working with you and your company.

Very truly yours,

James W. Carter  
Director

jb

Enclosure: original surety bond, 5/24/96 inspection memo
